There is no “i” in design. Well, of course there is, but not at Blu Dot. From the beginning, we’ve always designed collaboratively, even when it was just us founders in the studio, sketching, making models, building prototypes. We never felt comfortable putting just one of our names on a design, since it is always a team effort. Though our studio has grown to include five other designers, we still work this way today, in weekly critiques, shaping what you ultimately see in the pages of this catalog. We are psyched to show you some new work, like the Bub Lamp on page 58—utter simplicity rendered in blown glass and machined aluminum—or the clean silhouette and slouchy comfort of the Sunday Sofa on page 10. We hope you like what we’ve been up to.

Sloth gets a bad rap. Sure, you can multitask on Sunday. But why, when you can just melt instead? Refined and well-bred enough for the poshest of interiors, the Sunday Sofa is designed to look good, but still be all about the comfort, baby! A simple recessed leg eliminates distraction and lets the down-filled cushions and thin frame levitate. On Sunday, you rest. *Designed 2016*

**We design everything we make.**

We're often asked how a design gets from our sketchpad to your living room. The truth is, it's a mix of art and science, right brain and left brain. Sometimes we're trying to solve a frustrating problem. Other times, it's an aesthetic idea we're set on perfecting. But there's always a push and pull between being practical and being artful. And our goal is to find a balance between the two in a way that's clear, simple and economical. Modern, designed for the real world.

---

Go to **bludot.com/shoptalk** to learn more about our design process and see how our designs come to life.

**BUB TABLE LAMP** Shade and base are one in this deceptively simple and entirely alluring blown glass lamp. The result of our desire to work with blown glass, Bub is a study in getting down to the essentials. Wanting to work with as few moving parts as possible, we landed on the simple idea of a bulb piercing the glass. The outcome was the beautiful ghost of a lamp. *Designed 2016*

## ONE NIGHT STAND SLEEPER SOFA

Handsome
MPLS CYCLES Co. MINN

### Hey Hey Handsome Pants

We teamed up with Handsome Cycles to create a devilishly fun bike that does some good. Inspired by café racers, the bike is a stripped-down, lean, clean simple machine: single speed, coaster brakes, Brooks saddle and some bitchin' leather-gripped handlebars. Now the good part: for every bike we sell, we will donate a bike in the purchaser's name to World Bike Relief, whose mission is to help bring affordable transportation to rural areas of developing countries.
